MEMORANDUM FOR: Deputy Director of Central Intelligence
 FROM : [REDACTED] 25X1
 Chief, Counterintelligence Staff
 VIA : Deputy Director for Operations
 SUBJECT : Research Proposal for Updating
 Counterintelligence Techniques

1. I am submitting, with a recommendation for approval, a project designed to update counterintelligence and security authentication techniques. The Director of Security shares my concern with this matter and joins me in this recommendation.

2. The attached research project outline was prepared at my request by [REDACTED] who 25X1
 has just completed a special study for the Counterintelligence Staff. [REDACTED] represents a consulting firm known as 25X1
 [REDACTED] I 25X1
 believe that his analysis of the counterintelligence and security problems confronting the Agency is valid and that the proposals he makes in his project outline are valid.

3. Interest in [REDACTED] proposals transcends 25X1
 Directorate lines. The courses of action that may flow from the study he recommends would be beneficial to the U.S. counterintelligence community. The cost of the project appears modest. The CI Staff has funds available to defray one half of the anticipated cost.

[REDACTED] 25X1
